PERSONAL BACKGROUND

5+ years building robust mobile and web solutions for a vast array of South African companies

AREAS OF EXPERTISE

Languages: JavaScript (Preferred), Java and Python.
Mobile: React-Native (Android, iOS and Windows) and Native Android.
Server-side: NodeJS.
Web: ReactJS.
Desktop: ElectronJS (Linux, MacOS and Windows).

PROFESSIONAL HISTORY

Software Developer

BNRY | Nov 2018 to present

- Responsible for the development of several mobile (Android & iOS), web and desktop applications (Linux, MacOS & Windows). These applications run entirely on a JavaScript Stack composed of NodeJS, ElectronJS, ReactJS and React-Native.
- Defining best practices and strategies for web and mobile applications.
- **Projects involved:** Romans Pizza , Wilderness Safaris, Isuzu SA, ContinuitySA and Physio in a Box.

Course Developer

Damelin | Jul 2019 to Sept 2019

- Developed an online course intended to give a more in-depth understanding of JavaScript, diving into concepts that allow one to use its features correctly, and unleash one's creativity in building applications. The course provides the base needed to grasp advanced JavaScript frameworks, such as React, React-Native, Angular, etc., used by the majority of tech companies to create powerful web and mobile applications.
- Course: https://damelinfuturestudies.co.za/product/intermediate-javascript-online-short-course/

Software Developer

WiGroup | Dec 2016 to Oct 2018

- Part of a team responsible for the development of a product called App Framework, which is a suite of front-end tools and components that the engineering teams used to build mobile applications. Prior to that, I was responsible for building numerous mobile applications for both Android and iOS using React-Native.
- **Projects involved:** bsmart, Burger King SA, Equatorial Coffee, Krispy Kreme SA and Mugg & Bean.

Intern Software Developer

Effcomm SA | June 2015 to Dec 2015

- Conducting business analysis to develop efficient solutions to our clients.
- Developing applications using the Zend Framework in PHP.

Intern Software Developer

Saratoga Software | Nov 2014 to Jan 2015

- Conducting business analysis in the processes regarding the management of contracts between the company and its clients.
- Developing a cloud-based Contract Management Solution using ASP.Net, entity framework 6 and MVC5.
